## Things to Know

### Exclusions – Including Pets

Skateboards, bicycles and pets are not allowed on the course. Sport strollers and sport wheelchairs are allowed. When planning to use a sports stroller or sports wheelchair, it must be selected as a part of your registration or added later through a change request.

### Personal Information

Participating with inaccurate information in your race entry such as gender and birthdate or participating as someone else affects everyone not just you. Make sure your information is accurate including taking steps to transfer your race entry to someone else through a change request when needed.

If you have accidentally typo'd during your registration or you have registered another participant with inaccurate information, it will be inaccurate in race day results unless you have taken the necessary steps to identify and correct it.

Validate the information in your registration confirmation at the time of receipt as well as on the monitors or online immediately following the event. Pay attention to gender, birthdate or age group division and the spelling of your name.

If you identify a discrepancy or need to transfer your race entry in advance of the event, view change requests from the homepage and complete a change request. If you identified a discrepancy upon completion of the event, address it at the timing station before finalization of results and the start of the award ceremony. If it is after finalization of results, send an email to [info@phxfr.org](mailto:info@phxfr.org) for review to determine what, if anything, can be done to address your concern.

### Correctly Wearing Your Bib

Wearing your bib correctly will help ensure you are not stopped on the course for not having a bib on and it will also help ensure accurate reads and ultimately a timing result. Your bib needs to be placed on your front torso unobstructed. You may also place it on an upper thigh facing forward just below your torso. Do not bend the timing chip, remove the foam tape covering

the timing chip or place the bib anywhere else on your body including the back of your torso or where it would be covered. The foam tape, in addition to helping ensure timing chip reads, also helps prevent moisture from getting onto the timing chip from sweat or rain. Keep your bib away from liquid.

If needed, safety pins will be available at onsite registration to enable you to attach your bib.

Avoid congregating around the start and finish line other than when starting or crossing the finish. Congregating near a timing mat after it has been activated may create one or more false positives in your individual timing result, which could cause an error in your individual time result requiring reconciliation of your individual record in an attempt to correct it.

If you have secured your bib, have it with you on race day and have decided not to participate in the race, make sure you do not carry it with you near the timing mat at the start and finish unless you have gone to the timing station to have your bib deactivated. Not doing so can cause your bib to read placing you into results as participating in error affecting race result placements and awards for those who participated.

### **Race Shirt**

We do our best to forecast based on the sizes requested by participants during registration at the time shirts are ordered for the event. Requested size is not guaranteed as a part of your registration. If you do not receive the size requested, or you want to change the size you requested, go to registration immediately following the race to see if your request can be accommodated.

You must not wear any shirt you receive, if you want to attempt exchanging it for a different size after the race.

### **Swag**

While supplies last. Swag bags have a mixture of goodies inside from multiple sources. Content may vary from bag to bag and swag is not guaranteed as a part of your registration.

### **Medical**

First aid monitors will be available at the start and finish and will also be out on the course during the event. If you or someone you are observing needs medical assistance, please notify the medical race team or any other race crew member. The medical race team can respond quickly and is prepared to assist with any medical need including an emergency. If you believe you or someone else may be experiencing a life-threatening emergency and are unable to easily

find assistance call 911 immediately. You can familiarize yourself with approximate locations of medical stations by reviewing Half Marathon & 5K Courses from the homepage.

### **Aid Stations**

Water and portable toilets are located approximately every 1 ½ miles to 2 ½ miles, with energy drink and gel at select locations for the half marathon, to help keep you hydrated and refreshed. There will also be water at the start and finish. You can familiarize yourself with approximate locations of these aid stations by reviewing Half Marathon & 5K Courses from the homepage.

### **Bag Check**
